RAKHI VISHWAKARMA

AWS Cloud Administration

+91-7559150803 | rrvishwakarma2002@gmail.com | LinkedIn, rakhivishwakarma | Mumbai, India

Professional Summary

AWS Certified Solutions Architect and Developer (Associate) and Cloud Engineer with hands-on experience running **high-availability, Multi-AZ production environments** for BFSI clients. Delivered **18% infrastructure cost savings**, **40% faster deployments** through automated CI/CD, and **sub-30-minute RTO** across disaster recovery simulations. Combines core AWS infrastructure expertise (EC2, VPC, IAM) with Python and ML skills to bridge cloud operations and data-driven engineering.

Work Experience

Tata Consultancy Services *Mumbai, India*

AWS Cloud Administrator (Client: ICICI Prudential Life Insurance) *Nov 2024 – Present*

- Architected high-availability systems with **99.9% uptime** across 30+ EC2 instances using Multi-AZ ALB and Auto Scaling, ensuring uninterrupted service for core insurance applications.
- Reduced infrastructure spend by **18%** by right-sizing EC2/EBS resources based on CloudWatch metrics, without impacting performance SLAs.
- Automated golden AMI creation pipelines, cutting environment deployment time by **40%** and reducing manual configuration errors.
- Led **4+ disaster recovery simulations** achieving RTO under **30 minutes**, strengthening business continuity for regulated insurance workloads.
- Built CloudWatch observability dashboards that cut mean-time-to-detect (MTTD) for incidents by **25%**, and hardened security posture by auditing IAM policies, Security Groups, and AWS WAF configurations for BFSI compliance.
- Standardized incident-response runbooks and mentored **3+ junior engineers**, reducing manual intervention by **15%** and improving team readiness.
- Contributed to the ICICI Prudential company rebranding initiative, supporting the AWS cloud infrastructure side of the transition for a regulated BFSI environment.

Graduate Trainee *Aug 2024 – Oct 2024*

- Completed a structured enterprise training program covering cloud architecture, Linux administration (RHEL/Ubuntu), and ITSM frameworks.
- Executed simulated high-availability drills and infrastructure monitoring workflows, validating a **99.9% uptime** benchmark ahead of production rollout.

Technical Skills

Cloud Platforms	AWS — EC2, S3, CloudShell/CLI, IAM, Athena, CloudWatch, ALB, ASG, RDS, Redis, Lambda, ECS, CloudTrail
Networking & CDN	VPC, Subnetting, Route Tables, Internet/NAT Gateways, Route 53, VPC Peering
Containers	Docker, Amazon ECS
Monitoring & Logging	CloudWatch, OP-Manager, AWS Config
Cloud Governance	Digital Sovereignty on AWS, Data Residency & Regulatory Compliance (BFSI)
Security & Compliance	IAM, Security Groups, NACLs, AWS WAF, Shield, KMS
AntiVirus	TrendMicro
Programming & Scripting	Python, C++, SQL, Bash Scripting
Operating Systems	Windows Server, Linux (RHEL, Ubuntu, Amazon Linux)
ML & Data Science	Python (Scikit-Learn, Pandas, NumPy)

Awards

AI Idea Igniter — TCS Innovation Awards *Nov 2025*

- Received the Award for Excellence for pitching disruptive AI automation strategies and strategic conceptual frameworks.

AI Spark — TCS Innovation Awards *Aug 2025*

- Recognised for technical excellence in designing early-stage generative AI/machine learning frameworks and successful system validation.

Certifications

- AWS Certified Developer – Associate (Valid through Oct 2029)
- AWS Certified Solutions Architect – Associate (Valid through Nov 2028)
- AWS Partner: Digital Sovereignty Essentials – Training Badge (Oct 2026)
- AWS Partner: Digital Sovereignty on AWS (Technical) – Training Badge (Oct 2026)
- IBM Machine Learning Professional Certificate (Coursera)

Education

St. Francis Institute of Technology *2020 – 2024*
B.Tech in Electronics & Telecommunication Engineering

- First Class with Distinction; Honours in AI/ML
